ADVOCATES FOR ENDING VIOLENCE™

Join us for a conversational roundtable on the dynamics of domestic and sexual violence through a disability lens. We will explore the dynamics of abuse and the use of power and control within a disability context. We will explore aspects of unhealthy relationships and tactics used to target one's disability. Our roundtable panelists will discuss advocacy needs, supporting survivors' right to self-determination, and encouraging healthy boundaries.

Panelists include staff from Resilience: Advocates for Ending Violence and Lakeshore Disability Network serving Ottawa and Allegan Counties in West Michigan.
